

Customized Private Boat Tours with Palm Breeze Charters

“We’re in the have fun business” said Captain Melissa Carlson of Palm Breeze Charters recently. She and her husband Bill are dedicated to making every charter they captain totally customized to their customer’s needs and as close to perfect as it can be.

From romantic sunset tours, perhaps combined with dinner at a local waterside restaurant, to catered family beach picnics or sightseeing tours of the beautiful waterfront homes of Marco Island or Naples, each private tour is geared to exactly what you would like to do. And they have two gorgeous boats which offer very different, yet equally special, experiences to help you do it....

When you charter their luxuriously appointed pontoon boat, comfort is the watchword of the day. It’s a very stable boat and, for those of us with young children or who aren’t as mobile as we used to be, it’s very easy to board from the floating docks at Caxambas Pass. With complimentary soft drinks (you’re welcome to bring any other beverages you may desire) and delicious hors d’oeuvres you, and up to five others, can sit back and relax in “armchair comfort” while you cruise through the pristine waters of the Gulf, maybe watching dolphin jump in the wake or sting rays glide majestically by. There’s a small restroom and a removable bi-mini top to provide shade if you want it and lots of room to stretch out and catch a few rays if you don’t.

You can circumnavigate the island, visit the protected waters of Rookery Bay or Cape Romano, or

pull up on an uninhabited beach for some spectacular shelling - the choice is your's. They can even bring along a photographer to take the ultimate family beach portrait on a deserted island.

But rest assured, whatever you decide to do, Captains Melissa and Bill will be there with a fluffy beach towel, sunscreen, beach chairs, or perhaps toys for the kids to play with in the sand - whatever you need to make your experience a perfect one.

Or if your taste is for a little more excitement, their 35ft cigarette boat offers the more adventurous the ride of a lifetime. Nothing can describe the feeling of cutting through the sparkling waters of the Gulf at such high speed. The low throb of the powerful engines (quieter than you'd expect but like a cross between a Formula One car and a growling lion), the rush of the wind through your hair and the surprisingly smooth ride are an unforgettable combination. You can tour all around Marco in style, or take a trip up to Fort Myers Beach or Captiva Island.... the Cigarette boat is so fast you'll be there before you know it!

Even (or perhaps I should say especially) in these hard economic times we all need a little pampering occasionally. So why not treat yourself and your family or friends? "Our goal is to provide memories that will last a lifetime and we absolutely guarantee you'll have fun" said Melissa.
